

AUSTRALASIAN DAFFODIL CHAMPIONSHIP SCHEDULE 2010

Daffodil Section – Rules and Regulations

An exhibitor may make as many entries as desired in any class, provided each entry is a different cultivar or species or an entirely different collection of cultivars and/or species.

Note: In Tasmania all flowers will be judged according to their measurement and colour at the time of judging, not necessarily as registered by the RHS.

A 'Seedling' is an unnamed bloom, not in commerce, raised from seed and grown by the exhibitor.

A Collection shall not be penalized if any flower in it fails to reach a set standard.

In Collection classes, in a very close contest, judges will give credit for the range of divisions and colours in an exhibit.

All flowers shown in Collection, Open and Seedling Classes must be clearly labelled with either the name or seedling number, division and colour code of the flower or the words "Name not known" followed by the division number and colour code.

Foliage is not to be used in daffodil classes.

Unless otherwise stated all classes are for single stems staged separately.

Champion blooms will only be selected from single bloom entries, i.e; one stem per bottle, and may be taken from a collection.

Champion Seedling will only be selected from Seedling classes.

Bench space for staging of Collection Classes needs to be allocated.

All **Standard** daffodil entries are to be staged in green bottles. These will be provided at the hall for the use of New Zealand and mainland exhibitors as well as name cards for the blooms. Bottles for miniatures will also be available if required.

ENTRIES for **Collection Classes only** may be made by e-mail to Sue McFarlane – suroma@bigpond.com.au or by telephone to Sue 03 62 578463 or to 14 Esplanade Swansea, Tasmania 7190. Entries need to be lodged no later than 8pm Tuesday September 14th. The hall will be open on Thursday evening 16th September for watering up of daffodils and Friday 17th September at 8.30am for benching of daffodils. Judging will commence at 1.30 pm

The Novice section is for inexperienced exhibitors. Exhibitors may enter in the Novice Section for two years only, irrespective of the number of classes or championships won.

The Restricted section is the next section after leaving Novice. An exhibitor should move to the Open section after three years in Restricted if they win Best Bloom Restricted or a Trophy class. If an exhibitor has won none of the above he/she may remain in Restricted indefinitely.

Small Growers (previously called **Open Amateur**) are those not in commercial daffodil production.

Standard Blooms are those >80mm in diameter.

Intermediate Blooms are those > 50mm and up to 80mm in diameter.

Miniature Blooms are those 50mm or less in diameter.

2010 Miniature Daffodil Schedule

Definition: A miniature daffodil is a flower named on the approved ADS miniature list or one that the judges consider suitable for inclusion as a miniature daffodil. This includes all miniatures listed by Glenbrook Bulb Farm and those registered by other Tasmanian hybridisers.

Guidelines: A miniature daffodil, (cultivar or species) is one that consistently grows with reduced stature, has miniature flowers and correspondingly smaller foliage.
For example; *N. cyclamineus* Div 13; *N. dubius* Div 13; *N. fernandesii* Div 13; *Canaliculatis* Div 8W-Y; *Flomay* Div 7W-WWP; *Hawera* Div 5Y-Y; *Angel's Whisper* Div 5Y-Y.
The international standard is that miniature flowers will measure 50mm in diameter or less.

All miniatures can be coded according to corresponding standard division, trumpet, large cup, double, etc., but exhibitors and stewards may need to check the ADS list for correct coding. This list **will be** available from the Show Secretary for your perusal.

All miniature exhibits should be coded for colour and division, eg. *Hawera* 5Y-Y, *Mitimoto* 10W-Y.
Failure to name and colour code your exhibit may exclude your entry from being chosen Grand Champion Miniature.
Exhibitors should be aware that some catalogues will name regular Div 6 cultivars as “miniature” when in fact they are too big. Flowers such as *Jetfire* and *Jenny* are standard Div 6 daffodils and best described as ‘rockery’ or small garden daffodils. Some miniatures have been deleted from the official list as they consistently grow larger than 50mm. A list will be available from the show secretary.
Miniature daffodils are best exhibited in small containers appropriate to their diminutive size.
Miniatures may only be shown in **Miniature Classes.**
